Examination Rules, Evaluation and Revaluation Guidelines

Institution: College of Engineering & Technology | **Official Policy Document**

1. Hall Ticket and Examination Eligibility

Students are eligible to obtain the examination hall ticket only after clearing all institutional dues and securing the minimum prescribed attendance of 75%. Hall tickets must be presented along with the college identity card at every examination session. No candidate will be allowed to enter the examination hall after 15 minutes from the scheduled commencement of the test.

2. Procedure for Examination Revaluation

A student who desires to apply for revaluation of an answer script can submit an application through the student examination portal within 10 days from the date of declaration of results. The revaluation fee is Rs. 750 per subject course. If the difference between original marks and revalued marks is 15% or more, the revised marks are awarded. If revaluation results in an increase, the higher mark will be considered for the final grade.

3. Backlog and Supplementary Examination Rules

Supplementary examinations for backlog courses are conducted twice an academic year. Odd-semester backlogs can be cleared during odd-semester supplementary sessions, and even-semester backlogs during even-semester sessions. A student is permitted a maximum of 3 consecutive attempts to clear any backlog subject. If a student fails to clear within 3 attempts, special remedial mentoring and departmental permission is required for re-enrolment.

4. Malpractice and Unfair Means Penalties

Possession of mobile phones, smartwatches, programmable calculators, or unauthorized study material inside the examination hall is treated as malpractice. First offense: Cancellation of performance in that specific subject and award of Grade F. Second offense or copying from materials: Cancellation of all examinations of that semester and debarment from the college for one subsequent semester.

5. Challenge Valuation Scheme

If a candidate is dissatisfied with the revaluation outcome, they may request a Challenge Valuation within 7 days of revaluation results. The challenge valuation fee is Rs. 3,000 per subject. If the marks increase by 20% or more upon evaluation by an external senior examiner, the entire fee of Rs. 3,000 is refunded to the student.
