Training and Placement Cell Policy and Guidelines

Institution: College of Engineering & Technology | **Official Policy Document**

1. Placement Eligibility Criteria

Students eligible for campus recruitment drives must maintain an aggregate of at least 60% or a minimum CGPA of 6.5 throughout their academic career without any active standing backlogs. Certain tier-1 recruiters require a minimum CGPA of 7.5 or 8.0 with no history of backlogs. Final-year students who fulfill these academic thresholds must register on the college placement portal by August 15th.

2. One-Student-One-Job Policy

The Training and Placement Cell follows a strict 'One-Student-One-Job' policy to ensure equitable employment opportunities. Once a candidate receives a formal job offer, they will be marked as 'Placed' and are ineligible for subsequent recruitment drives. Exception: A placed student is permitted to participate in 'Dream Company' drives only if the Dream offer CTC is at least 2 times the current offer CTC.

3. Training and Mock Interview Attendance Requirements

To remain eligible for campus placement drives, students must maintain a mandatory minimum attendance of 85% in all soft skills, technical training workshops, aptitude bootcamps, and mock interviews. Unexcused absence from two consecutive training sessions will result in placement registration suspension for a duration of one month.

4. Placement Dress Code and Interview Etiquette

Students must appear in full professional formal attire (formal suit/blazer, white shirt, formal shoes, tie for boys) for both on-campus and virtual interviews. Students must carry 3 hard copies of their approved resume and their college ID card. Any candidate who behaves unprofessionally or fails to appear after shortlisting will be permanently debarred from further placement assistance.

5. Offer Acceptance and Reporting Deadlines

Upon receiving an offer letter from a participating company, the student must formally accept or decline the offer within 48 hours. If a candidate accepts an offer and subsequently refuses to join without valid medical justification, their degree certificate recommendation will be withheld.
